November 2015

Dear all

I would like to inform all Club players through their Clubs, that it is a requirement for all players to be prepared to produce their Petanque licences at all Tournaments.

This is to ensure that the licence has been signed and has a photograph of the player, date of birth and has a current date sticker.

The Sports Software program has all registered players listed. However not all Tournaments use this system. Some of the newer umpires do not know all players.

We are striving in Victoria to have a non playing umpire at all Tournaments.

If you have any members wishing to attend an Umpire Course in the coming months please contact me at the above.

Yours in Petanque.

Danny Green
